# Unfortunate News from HOLLAND!

Very unfortunate news reached us a few days ago from Europe! Because of war, England, and other European nations forbade further importation of bulbs from Holland this year.

The loss of these major markets prompted the Dutch Government to demand that all growers destroy fifty per cent of their stocks of Tulips and Hyacinths from which the usual 1940 supply is to come. Furthermore, all bulbs left over from this season's harvest were ordered destroyed.

Prompt cable advices from our grower enabled us to make an advantageous purchase of a number of the choicest varieties before this destruction order was officially given.

These bulbs have now arrived and are in perfect condition; full top-size, and A-No. 1 in every respect. Just as good as our regular stock, and we guarantee them the same as we do our other bulbs.

We have been advised of the likelihood of no Dutch Tulips to be exported to America next year. If, however, they are available in 1940, prices will be double what they are today.

With the sincere belief based on present available information that there may be no Dutch Tulip bulbs available next season, we suggest you take advantage of this opportunity to buy several hundred bulbs of the finest varieties at less than half their usual cost.

## You Must ACT Promptly Planting Time is Here!

We are pricing all these varieties at \$3.50 per hundred bulbs, but do not sell them in smaller quantities than 50 bulbs of one kind at this price. They are top-size bulbs and of the same quality as our regular stock, and carry the same guarantee!

When sending your order tell us if we may send you another variety if the one selected is sold out.
